BLACK / WHITE GLASS CLOTH

GENERAL

Our black acoustic glass cloth is a lightweight woven glass fabric with black organic weave lock. The material gives a good fray resistance and is water stable.

Offering exceptional acoustic absorption performance when coupled with many of our acoustic foams and providing improved aesthetics over standard glass cloths.

BLACK (.BK) or WHITE (.WH)

PROPERTIES

Test	Unit	Value	Method
Weave Pattern		Plain	DIN ISO 9354
Yarn	tex		
Warp		EC9-34	
Weft		EC9-34	
Tensile strength	N/cm		DIN EN 12654
Warp		225	
Weft		180	
Thickness	mm	0.10	DIN ISO 4603/E
Temperature resistance	°C		
Continuous load		180	
Short time resistance		230
