

PRODUCT DATA SHEET

FPG.WH

WHITE POLYURETHANE COATED GLASS CLOTH

GENERAL

FPG.WH is a light-weight woven glass fibre fabric coated one side with a specially formulated white polyurethane rubber.

This heat resistant, fire retardant polyurethane coating provides extended life and improved resistance to abrasion, flexing, tearing and puncturing.

TECHNICAL DATA

Base construction	17.2 ends per cm 12 picks per cm
Yarn count	EC9 68 warp EC9 68 weft
Weave type	Plain
Fabric weight per m ²	200g
Fabric thickness	0.23mm
Temperature resistance	550°C
Other information	Standard roll width – 1270mm Standard roll length – 50m
